Question: What causes leaves to fall in the fall?

Directions: Twice each week complete all of the following:

1) Draw a picture of your leaf that is to scale. Include color, design, and any other details that may be important.
2) Record the length of your leaf. Use the centimeter graph below as a guide.
3) Describe your leaf in 15 words or more. Focus your writing on changes since your last observation.

About how many leaves are still on this branch? _____ Length of leaf = _____ c.m.

Leaf Observations:
