

**NATIONAL COLLEGIATE WATER SKI ASSOCIATION  
VERIFICATION OF NATIONAL RECORDS  
(effective August 1, 1994)**

**GENERAL NATIONAL RECORD REQUIREMENTS:** Applies to performances being considered for all events. Each event must meet **ADDITIONAL NATIONAL RECORD REQUIREMENTS** as stated on page 2.

1. NCWSA National records may be set at any Class C NCWSA/AWSA sanctioned tournament which:
  - a. Meets all of these "National Record Requirements".
  - b. Meets or exceeds all technical requirements of an AWSA/NCWSA Class C tournament as described in the AWSA Official Tournament Rules.
  - c. Follows all NCWSA Tournament Rules with the exceptions and/or additions herein required.
2. An AWSA technical controller shall verify and record the NCWSA record capability of the tournament course (Class C tolerances) equipment, judges in positions as required by these verification procedures, and all else affecting the validity of a new skiing record. The chief judge shall act as technical controller if none is appointed. The chief judge (and technical controller if appointed for the tournament) shall sign the record application attesting the above.
3. A performance is recognized as a record (upon validation) if it ties or exceeds the existing national record. NCWSA Tournament Rules allow no run-offs of ties.
4. The proposed new record must be made on the official NCWSA Record Application Form, filled out completely, sent along with a copy of the Chief Judge's Tournament Report and received by the NCWSA National Chairman within 30 days of the performance to be considered by the NCWSA Board for approval. It is the Chief Judge's responsibility to get the completed application and a copy of his tournament report to the NCWSA Chairman within the 30 day time limit.
5. Actual ratings of the officials for the event of a proposed record performance being considered will be verified by the NCWSA Chairman from the current edition of the AWSA Directory of officials and/or phone(s) call to AWSA Headquarters upon receipt of the application. All officials must have the required rating in the event for which the record is to be considered, at the time of the performance. The Chairman will so note any changes/descrepancies of the officials' ratings on the application prior to submission to the NCWSA Board.
6. All collegiate national records will be certified and approved by the NCWSA Board of Directors by a 2/3 affirmative vote of the Board (by mail ballot or Board meeting) and will remain as national records until replaced by the approval of the Board of higher performances. The NCWSA Board will maintain a current list of all national records. Upon receipt of the completed application for a new national record and Chief Judge's Report by the NCWSA Chairman, that performance may be considered by the skier as a pending record until such time as final certification and validation or rejection of same.
7. Final validation of a new record shall be made by the NCWSA Chairman's signature on the application upon approval of the Board. Notification of acceptance or rejection of the proposed record performance will be mailed to the skier at the address shown on the application by return receipt requested. If the record is not approved the skier will receive a letter with the reason(s) for rejection from the Chairman.
8. Any record performance denied to the skier may be appealed by the skier by notifying the NCWSA Chairman in writing with a request to be reconsidered and the reasons the skier feels the record should be reconsidered. This must be done

within thirty days of receipt of the rejection letter by the skier from the Chairman. The Chairman will resubmit the application to the NCWSA Board. The Board will again review the application and any new information available and will vote to accept or deny the skier's performance as a national record. The second vote is final.

#### ADDITIONAL NATIONAL RECORD REQUIREMENTS FOR EACH EVENT:

##### 1. SLALOM

- a. Timing device checked by the Chief Judge or Tech Controller
- b. Timer name, rating, (AWSA Asst. or higher rated Judge or Driver) and signature
