NSSA TESTED DRIVER FORM

The NSSA has instituted a Tested Driver Program to provide a means of ensuring our ongoing emphasis on Safety in the Sport of Show Skiing. In 2001 at least one driver from each Club or Team <u>must</u> have successfully passed this test and be on the water driving a boat during a sanctioned tournament. By 2005 <u>every</u> tow boat driver must have passed this test that drives at a USA-Water Ski sanctioned event (practice/show/tournament). The Tested Drivers (successful) for your Club/Team must be listed below, and this Form turned in with the tournament paper work (starting the year 2001)
