Registrars and Scorers – Call up the downloaded Registration Template in Excel. The first page will show you how to use the Template. At the bottom of the spreadsheet, click on the tabs to see either the active members, or the inactive memberships.

Use the columns for slalom, trick, and jump to indicate whether a skier on the Template is entered into your tournament. The scoring program (WSTIMS) will ignore the skiers on the Template who are not flagged as entered. You do not have to delete skiers who are not entered. To use the “find” feature in Excel to quickly locate your skiers, hold the Control key down and hit “F” (for find).

Scorers will need to save the Registration Template into a format that WSTIMS can use. Detailed instructions for that are contained on the Registration Template itself.

THANK YOU FOR YOUR CONTRIBUTION TO THE SPORT OF WATER SKIING!
