

Forest Floor Terrarium Student Responsibilities

Before You Begin...

- 1) Read this page completely.
- 2) Make sure that you have the following supplies: scale, ruler, Observation Page.
- 3) If you are sensitive to mold, have a teammate weigh the rotting log at a later time. Do not open the terrarium lid while observing.

What To Do

- 1) Review Observation Pages from the previous weeks.
- 2) Follow the directions on the Observation Page.
- 4) Display your observations at the center. (See your teacher for more information.)

After You Finish

- 1) Check the area to make sure it looks neat and clean.
- 2) Return all materials safely to their place and **WASH YOUR HANDS.**
- 3) Schedule a time with your teacher to share your findings with the class.
