

# The Pyramid of Energy and Food Webs

**Directions:** Use the organisms in the box below to complete the Energy Flows and Matter Cycles Pyramid of Energy. Once the pyramid is complete, glue the food web below to the back.

Producers	Primary Consumers	Secondary Consumers	Tertiary Consumers
 smartweed   cattail   phytoplankton	 wood duck   red winged blackbird   invertebrates   zooplankton	 black rat snake   bluegill sunfish   dragonfly   carp	 red shouldered hawk   green frog   great blue heron
 decomposers  Decomposers work at all levels of a food web to return plant and animal matter to the soil, air, and water.   decomposers
