

## Instructions for Einstein Revealed Videos and MP Assignments.

- *First: if you didn't see part 1 of Einstein Revealed, use one of the links to watch it before you go on to part 2 – you won't understand much in part 2 if you haven't seen part 1. There are no MP questions for part 1 – we covered those with LC in class.*
- **Now for Part 2:** Go to MP and open the assignment: Video: Einstein Revealed Part 2. Answer the first question.
- On the Canvas Calendar, click on the video title which will take you to a site to watch the video. Open the second question on the MP assignment, and as you watch the video, you'll find the answer. Do this for the rest of the questions until you get to the end of the video.
- Note, if the DailyMotion site does not work, try the Backup Link; although, this site can't support too many simultaneous users and might freeze up.
- **You should watch the video and complete the assignment by the time of the final exam, 12:45pm on Friday May 15.**
- **Last, if the links to the video don't work, please notify Dr. Alexander (alexansg@miamioh.edu).**
- *Oh yeah, one more instruction: have some good snacks handy and maybe watch the video with some friends – enjoy!*
